## COVID-19 important information – preventing infection

For all parents and carers

Please find below the general principles we should all be following to prevent the spread of the virus:

- washing your hands often - with soap and water or use alcohol sanitiser if handwashing facilities are not available. This is particularly important after taking public transport.
- covering your cough or sneeze with a tissue, then throwing the tissue in a bin.
- people who feel unwell should stay at home and should not attend work or any education or childcare setting
- pupils, students, staff and visitors should wash their hands:
  - before leaving home
  - on arrival at school
  - after using the toilet
  - after breaks and sporting activities
  - before food preparation
  - before eating any food, including snacks
  - before leaving school
- use an alcohol-based hand sanitiser that contains at least 60% alcohol if soap and water are not available
- avoid touching your eyes, nose, and mouth with unwashed hands
- avoid close contact with people who are unwell
- clean and disinfect frequently touched objects and surfaces
- if you are worried about your symptoms or those of a child or colleague, please call NHS 111. Do not go directly to your GP or other healthcare environment

Pupils are sent to wash hands prior to eating lunch and after visiting the toilet and we will be ensuring pupils also now wash their hands / use gel upon arrival and before leaving the building.
